

INKLÜD® TABLE

+ Porcelain Steel Top

Inspire. Involve. Inklüd.

Cultivate inclusivity and encourage autonomy with a collection of flexible, multi-use tables.

INKLÜD® TABLE + PORCELAIN STEEL TOP

- Empower users to maximize their productivity with the versatile line of Inklüd tables. A practical solution for middle school, higher education, and commercial use, the sleek, simple profile suits any environment.
- Flip top tables feature a mechanism engineered for superior usability, with smooth one hand operation, two-degree adjustability that stops within the range once the lever is released with no sudden dropping, and securely locks in place in all locking positions.
- Now available with a porcelain steel whiteboard top, the Inklüd table surface provides plenty of space for writing or planning, all on a unitized frame for improved structural strength and stability.
- Porcelain steel whiteboard provides space for doodling, jotting down notes and ideas, and brainstorming. Surface accepts magnets for even more versatility.
- Porcelain reduces ambient reflection and glare over standard HPL markerboard, providing a more comfortable to use writing surface. Porcelain also has superior erasability, and comes with a lifetime guarantee.
- Tests show our 24-gauge porcelain is more than twice as hard, and twice as scratch-resistant as laminate, reducing dents, dings, and other damage. Surface is also 5.5 times more wear-resistant than laminate.
- Erasability is more than twice as good on a porcelain surface versus laminate dry erase surface, and holds up to use, showing better erasability over time.
- Porcelain resists delamination, keeping dry erasability intact for the life of the desk.
- Comes with molded polypropylene edge banding. Edge is slightly raised for a fully encapsulated top, ensuring steel will not rust.
- SCS Indoor Advantage Gold Certified.
