Deluxe Mobile Reversible Board

Part Number(s): 668AC, 668AF,
668AG, 668AH

Overview:

Get up to twice the functional space of a wall-mounted board with a versatile and mobile Deluxe Mobile Reversible Board. Boards are double-sided and available in a variety of surface combinations, including porcelain steel magnetic markerboard, and Dura-Rite® HPL dry erase markerboard.

Surfaces:

Surfaces available for mobile reversible boards are Dura-Rite® HPL dry erase markerboard, and porcelain steel magnetic dry erase markerboard. The double sided porcelain steel option utilizes 28-ga porcelain steel markerboard on both sides of a 7/16" MDF panel. Double sided Dura-Rite HPL option utilizes 0.04" thick Dura-Rite HPL on both sides of a 7/16" Hexacomb panel. Surfaces are available with 0.60" thick aluminum trim.

Frame:

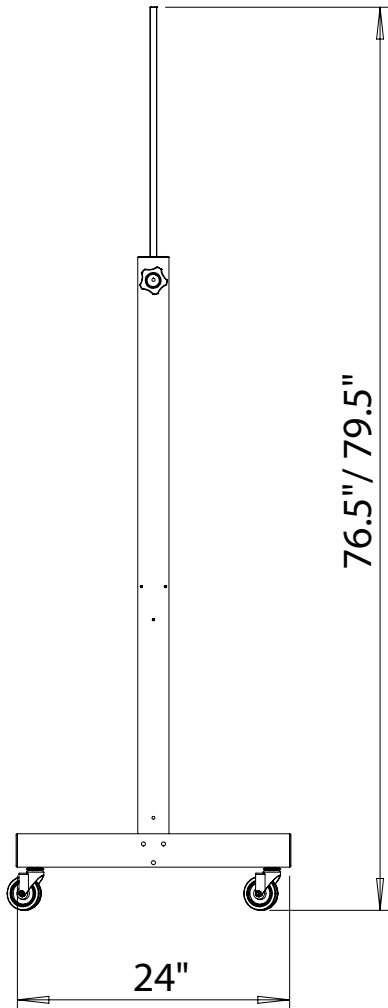

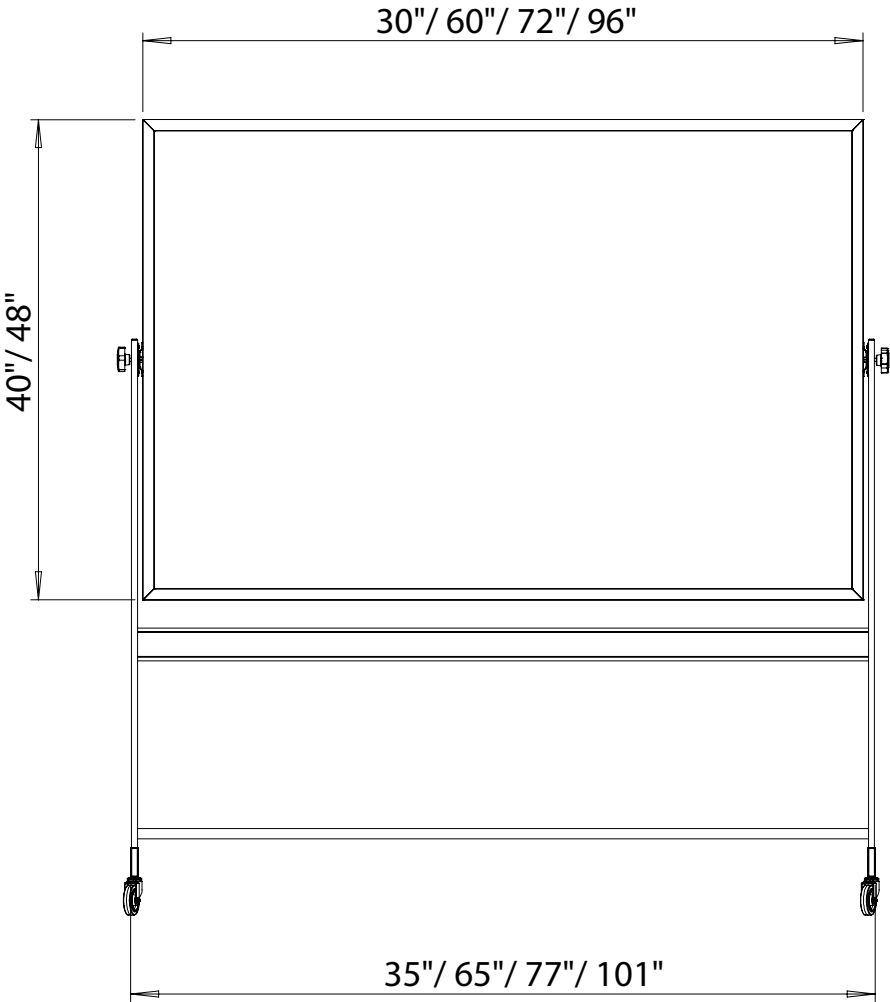

The frame is made of two 0.07" thick aluminum legs, a full length 0.075" thick aluminum tray, and a 0.05" thick 1" diameter aluminum tube cross brace. The legs are made of two 2.75" x 0.56" sections. The horizontal is 24.25" long and is connected to the 53.75" long vertical section with three M5 x 6mm screws on each side. Plastic end caps cover all open ends of the frame legs. The aluminum tray is a 2.5" by 3" 'T' that has 0.36" diameter caps on each edge. Six M4 x 25mm screws attach the tray to the legs through these caps. The cross brace is held to the legs with two M6 x 35mm screws. One 10-ga 3.35" x 1.725" steel flange with an M8 x 35mm bolt is attached to each side of the markerboard trim with two M5 x 15mm screws. At the top of the legs are two 10-ga steel plates 3.35" x 1.725" that support the flange bolts. The flange bolts attach on the outside of the legs to a 2.2" diameter x 1.0" deep plastic knob on each side to lock the markerboard in place. The frame is attached to four 3" casters with M10 x 15mm stems.

Certifications:

SCS Indoor Advantage Gold Certified.
