KEY FEATURES

Designed for Floor-Level Activities

Provides comfortable cushioning for children during play, reading, therapy, and hands-on learning.

Two-Piece Modular Design

Two half-round sections fit neatly around the table pedestal and can be easily removed when needed.

Supportive Foam Cushioning

Constructed with 2" thick foam to provide lasting comfort during extended use.

Compatible with Multiple Tables

Designed for use with both Coradle Sensory Tables and Coradle Common Tables.

Healthcare-Friendly Construction

Durable upholstery supports easy cleaning and dependable performance in demanding care environments.

Comfortable Support for Floor-Level Play

Designed to complement the Coradle™ Sensory Table and Common Table, the Coradle Kneeling Pad creates a softer, more comfortable space for children to engage in floor-level activities. Constructed from supportive 2" thick foam and upholstered in durable healthcare-friendly fabrics, the kneeling pad is designed specifically for pediatric healthcare and wellness settings where comfort, cleanliness, and durability are equally important.

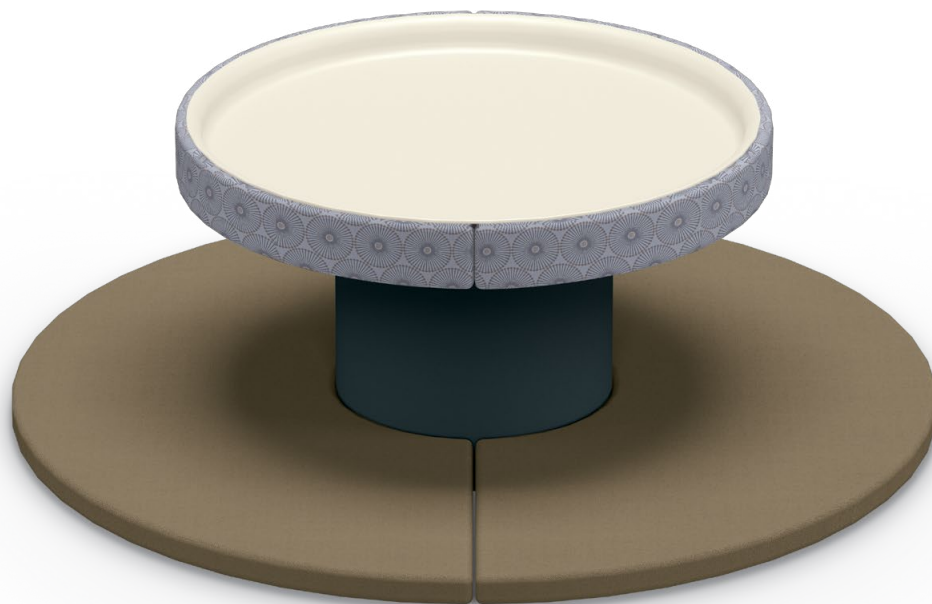

The two-piece design fits neatly around the table pedestal, creating a generous 60" diameter cushioned activity area while allowing the pieces to be easily removed for cleaning or reconfiguration. Offered in a wide range of fabrics, the kneeling pad brings added comfort, flexibility, and warmth to pediatric environments. SCS Indoor Advantage Gold Certified.

Ideal for:

- Pediatric waiting areas
- Children's hospitals
- Therapeut environments
- Behavioral healthcare spaces
- Pediatric clinics
- Early learning activity areas
